Quick
Setups
and Easy
Maintenance

- » SECO and Crain have combined technologies to introduce the lightest, most user-friendly, pole on the market
- » The inner and outer are constructed of lightweight fiberglass
- » Newly redesigned TLV™ (Twistlock with vial) reduces weight while providing the same locking function users have grown to expect from SECO
- » Non-conductive
- » Included in this package is Crain's patented Topo Boot®
- » Includes 40-minute adjustable vial, a soft touch knob, and adjustable 5/8 x 11 tip
- » The standard color is red and white, though other colors are available upon request
- » The poles extend to 8.58 ft (2.62 m) and collapse to 5.10 ft (1.55 m)
- » The pole models shown weigh approximately 1.95 lb (0.88 kg)
- » Coming soon: 12-foot model
